THE AUTOMATIC IMAGINATION STRIKES IN HANNOVER!

Saturday, november 9, 1991, the exposition of K R H Sonderborgs' work was visited by a group of Droomschaar artists. Rik Lina from Amsterdam was having his own show at Rainer Wicherings Galerie 13, and they decided to bring their visiting friends, Dave Bobroske (Canada), Fredy Flores Knistoff (Chili), Miguel Lohlé (Argentina), John Welson (England), to the Galerie Boër. An installation of pain-

ter tools and sheets of paper covered the floor of the gallery as if waiting for the artist to arrive. When Rik told Claudia Boër his hands were itching to start working and she answered: why not?, the artists started right away and 10 minutes later all paper was touched and a collective work has appeared as a homage to this great automatic painter Sonderborg.
